DESCRIPTION:

The following position is offered as a field placement through the Region IV Public Health Training Center (<http://www.sph.emory.edu/r4phtc>).

Mississippi Public Health Institute fosters partnerships that bolster and advance program innovation and health equity while increasing the accessibility and impact of health resources, education, health awareness, and applied research and policy. The mission of the MSPHI is to engage in partnerships and activities that improve Mississippians' health. At its core, MSPHI works across four domains: Community Health, Maternal Child Health, Chronic Disease and Public and Behavioral Health Practice. Across the domains we conduct formative and evaluative research, program implementation, capacity building, workforce development and training, community needs assessment, and coalition building.

Since the establishment of the organization in 2011, MSPHI has worked extensively with organizations to promote health and well-being throughout the state. Collaborative work includes agencies like the Mississippi State Department of Health, The Mississippi Department of Mental Health, Federally Qualified Health Care Centers, and other community-based organizations.

POSITION DESCRIPTION:

The student will be working with the Maternal and Child Health Team at MSPHI. There are various MCH programs that the student will be exposed to and have the opportunity to learn more about each. For the purposes of this project, the student will be working with the Program Manager for the Mississippi Perinatal Quality Collaborative (MSPQC) and the MCH Program Director. The MSPQC is a multi-stakeholder network of clinical, community and public health partners, dedicated to improving maternal and infant outcomes in Mississippi through the dissemination of evidence-based practices.

The internship experience is a vital component in the overall training of students in Public Health Programs. This internship is designed to Provide the student with practical experiences in Public Health under appropriate supervision by competent personnel.

REQUIRED QUALIFICATIONS:

- Basic understanding of the 10 Essential Public Health Services
- Ability to understand and follow oral and written instructions
- Ability to analyze facts, exercise sound judgment, and to arrive at sound conclusions
